

How to install the app

The COCOSPA app is a lightweight web app — you won't find it in the App Store or Google Play. You install it directly from your browser, with a single tap, right onto your phone's home screen.

START HERE

Scan the code to open the app

Point your phone's camera at the QR code — it will open the app page.

IPHONE · SAFARI

Installing on iPhone

1 Open the page in Safari

Tap the link to the app. Important: it must be Safari — Chrome on iPhone doesn't support this.

2 Tap the Share icon

The square-with-an-arrow icon in the bottom toolbar.

3 Choose “Add to Home Screen”

Scroll down the list of options — it's one of the last items.

4 Confirm “Add”

The COCOSPA icon will appear on your home screen. Done!

Tip: once opened from the home screen, the app runs full-screen, without the browser's address bar.

ANDROID · CHROME

Installing on Android

1 Open the page in Chrome

Tap the link to the app and open it in Chrome.

2 Tap the menu (three dots)

It's in the top-right corner of the screen.

3 Choose “Install app”

The exact wording may vary depending on your phone.

4 Confirm the installation

The COCOSPA icon will appear on your home screen. Done!

Tip: on some phones, Chrome will suggest this itself — a small banner at the bottom of the screen.

! TROUBLESHOOTING

App not showing the latest version?

Sometimes your phone remembers an older version. Clearing site data doesn't delete your app settings.

iPhone

- Open Settings
- Scroll to Safari
- Go to Advanced
- Choose Website Data
- Find cocomodule.com and delete
- Reopen the COCOSPA icon

Android

- Press and hold the COCOSPA icon
- Tap App info
- Go to Storage
- Tap Clear cache
- Reopen the app
